Hello every one,

I am particularly gratified to read the comments of the Minister of Culture and Communication, Nathalie Roy, at the very time that I announce the addition to the Heritage Association’s digital library of the souvenir album for the 100th Anniversary of the Parish of Saint-Cajetan, published in 1982.

More than 60 families contributed genealogical notes with photos to this Album. The collection is enriched by the addition of short narratives of general interest such as political life, education, economy, and social life as well as the religious life of this community. Equally present are descriptions of the businesses and organizations active at the time.

[History of a parish St-Cajetan, of a village Mansonville, of a municipality Potton](#) completes that which pleases me to call “a digital trilogy” which include these other publications : [Potton d’antan | Yesterdays of Potton](#) and [Place Names of Potton and More | Répertoire toponymique du canton de Potton](#).

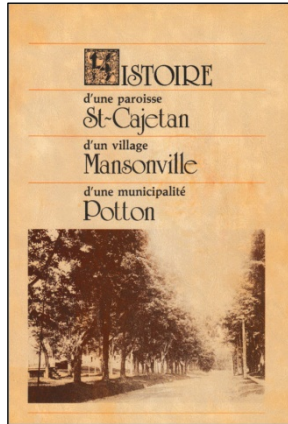

All key publications which together perpetuate our *DUTY TO REMEMBER*, one of the objectives retained by the Potton Heritage Association. May the digital era assure “second life” to these publications.

Attached are the appropriate links to access these publications on the Net. Please share freely with others who may be interested.

In closing, I sincerely thank Lorna and Royal Lamothe who graciously allowed me to use their precious original printed copy in order to digitize this valuable piece of Potton history.

Enjoy looking back into our community of 38 years ago!
